

REVIEW GUIDANCE FOR VALUE DISTRIBUTION MODEL

Use this guidance to confirm the Value Distribution Model allocates value, economics, or recognition in a controlled and evidence-based manner.

Review focus

- Confirm the value pool or economic object being distributed.
- Confirm eligibility, timing, and calculation logic.
- Confirm evidence, approval, and dispute mechanics.
- Confirm exclusions, caps, and adjustment rights.
- Confirm consistency with the governing agreement and exhibits.

Value Realization lens

The Value Distribution Model supports Value Realization by converting realized value into governed distribution logic that can be reviewed, approved, and defended.
