

LEGAL DOCUMENT NAMES AND ACRONYMS

1.0 Purpose

This registry is the single source of truth for canonical **Legal Framework** document names and acronyms. It governs:

- Legal Framework maps and matrices
- Legal instrument titles and headings
- Acronyms used in drafting and internal references

2.0 Canonical naming rules

- **Prefer unambiguous acronyms.** Avoid acronyms that collide with common market meanings.
- **MA vs MSA.** In this framework, **Master Agreement = MA**. **Master Services Agreement (Customer) = MSA**. Do not use MSA to refer to MA.
- **Document titles control.** Use the canonical names below in H1 titles of Markdown sources.
