

MASTER SERVICES AGREEMENT (CUSTOMER)

MASTER SERVICES AGREEMENT (CUSTOMER)

Purpose

This document serves as the canonical **Customer Master Services Agreement (MSA)** template.

It is distinct from the **Master Agreement (MA)**, which is the governance spine for Alescent's role schedules, role assignments, and discrete assignments.

Intended use

- Use when a **Customer Partner** requires a full master services agreement governing delivery of services and statements of work.
- Use with customer-specific SOWs.
- Use to supersede a Partner Engagement Letter (PEL) only to the extent of overlap or conflict, consistent with the PEL "no-gap" posture.

Status

This is an initial stub to reserve naming, acronym usage, and placement in the Legal Framework.
